Quantitative Investment Ecosystem Panorama

What is TigerAI?

Tiger AI, developed by U.S.-based Tiger AI Management LLC, is the world's first AI-powered, multi-cycle, and sustainably dividend-generating intelligent quantitative fund system. As the first major incubation project under TT (Tantin) Group's "Hundred Tokens Initiative", Tiger AI has received a $300 million strategic investment from TT (Tantin) Group and has officially become a wholly owned subsidiary of the Group.

- Fully automated AI strategy execution system
- Supports multi-currency investment in USDT / USDC / BTC / ETH
- Optional cycles of 7 days / 90 days / 180 days / 270 days
- Daily returns in USDY or TAC (convertible to USDT)
- Low investment threshold, allowing retail investors to beat the market with AI

TigerAI · Fund No.1 (TQF–1)

Four Cycles **Flexible Choices** **Stable Daily Returns**

Cycle	Daily Return Rate	Profit Structure
